

Listening Tours

The Arc of PA will be holding 12 listening sessions in September to provide self-advocates, families, and caregivers an opportunity to share their ideas and suggestions for solutions. A flyer is attached. Please distribute this information to your contacts, networks, clients, self-advocates, and families with individuals with a disability. Sessions in Spanish will also be scheduled at another time. There is online registration for participants: [Listening Tour #2 Registration – The Arc of PA’s Covid-19 Health Disparities Among People with Disabilities Initiative | The Arc of Pennsylvania \(thearc.org\)](#)

A few months ago, we asked about your experiences during the COVID-19 pandemic. Since then, we have put together a comprehensive report detailing barriers to health for people with disabilities during the COVID-19 pandemic.

The next round of listening tours aims to collect solution examples and recommendations related to decreasing, or eliminating barriers, concerning health crises in the future. This information will then be added to the solutions report that will be presented to the Pennsylvania Department of Health.
